Fulton, playful, adorable personality -- happy, energetic responsive. Come see him. You won't be sorry

Bella, our beautiful girl with some separation anxiety. Her foster family is getting ready for the new school year, and she needs a family with someone home most of the time

Kenny, our scared boy dropped off at park in Aspen Hill, MD. He is little, loves his face rubbed and has decided that food is a good thing. If you are dogless right now, or an experienced Shar-Pei person, he will make a good companion. He is a feisty little boy.

Wilbur doesn't have a mean bone in his body. Friendly, anxious for love and pets, he is a great Pei

Rosie from Brooklyn. Is a loving friendly girl. Won't you come meet her and see what a great companion she will be?

Alfie, the new girl on the block. Very sweet, learning that she is OK and MACSPRO will take care of her. This is a kinder world than the streets of New York City.
